

BOOST TABLE SYSTEM

The only flip table system with everything you need.

WHAT MAKES BOOST TABLES DIFFERENT?

- 1 Huge Range of Top Sizes**
Unique extendable frame caters to table top sizes from 1000 x 600mm, to 2200 x 1000mm.
- 2 Configurable Leg Positions**
Frames available in both fixed length (1140mm) or extendable base. This means you can choose training tables with legs positioned at the ends, or meeting tables with legs inset, to ensure the table legs do not obstruct the user.
- 3 Available Seated or Leaner Height**
The only Flip table system available with matching Standing and Seated height options, for a consistent look throughout your project.
- 4 Range of Standard Top Shapes**
Available in Rectangle, Trapezoid, Semi-Circular or D Shape, allowing you to create the optimal configuration for any purpose from council chambers to executive boardrooms.

- 5 Modesty Panels Available**
Unique modesty panel design is positioned central on the table depth and stays vertical when the table is flipped. Choose from metal or acoustic options.
- 6 Power Box Options**
Standard power box kits available, specifically designed to work with the complex moving parts of a flip top table.
- 7 Most Robust Connectors in the Market**
Available with or without our robust connectors. Every table is drilled for connectors, allowing them to be easily retrofitted if needed.
- 8 Finishes**
Available in stock and non-stock colours with all pricing available online.

WHERE CAN THEY BE USED?

Boardrooms

Hospitality & Conference Rooms

Training Rooms

Tertiary Classrooms

Multipurpose Spaces

Use one space for multiple uses, by simply moving and reconnecting the tables. Tables nest snugly together to take up minimum space when not needed.
