

COCOON LIFT RECLINER SINGLE POWER LIFT CHAIR

Generation 1

Generation 2

The Cocoon Lift Recliner Chair – Single Electric is the ultimate lift chair for comfort and functionality. Exquisitely soft, the Cocoon relieves pressure points and offers superior pressure care by immersing the whole body in the quilt. Excellent for maintaining user's autonomy as it lifts to the required position and with its multiple movement functions including moveable arms and pressure relieving points. The removable, breathable and waterproof quilt set enables easy cleaning for infection control, making it the perfect lift chair for Aged Care, Healthcare, Bariatric, Home Care and Hospital use.

SPECIFICATIONS

- Relieves pressure points by immersing the whole body's patient in the quilt
- Removable and Washable back and seat base and armrests - To fight against infection
