

# RING LED MAGNIFIER LIGHT – WALL-MOUNTED

---

Eyesight can often reach its limits in demanding medical tasks. Distortion free enlargement under optimal light conditions is needed. The Ring LED Magnifier Light - Wall-mounted illuminates details to their greatest precision, because they are designed for in-depth examinations and analysis in the dialog with the user. Easy on the eyes with glare and distortion-free action. Uninterrupted working due to its minimal weight, the magnifying glass stays in position
